Hitesh Bopche

Full Stack Web Developer

WORK EXPERIENCE

Web Developer
Student

- Developed and maintained responsive web pages using HTML, CSS, JavaScript, and React, enhancing user engagement and interface design.
- Assisted in backend development with Node.js and Express, ensuring efficient data integration and functionality.
- Managed databases using SQL and MongoDB, improving data retrieval and storage processes.
- Utilized Git and GitHub for version control and collaborative development, maintaining code integrity and facilitating team cooperation.
- Participated in code reviews, contributing to the improvement of code quality and performance.

Python with Django
Intern

- Successfully completed a 30-day internship focused on Python and Django development.
- Gained hands-on experience in developing and maintaining web applications using Django framework.

PROJECTS

Python Chatbot using Gemini API and Streamlit

- Developed a Python chatbot using the Gemini API and Streamlit, implementing API calls to fetch data.
- Created an intuitive user interface for seamless interaction, enhancing chatbot functionality and user experience.

Automatic CAPTCHA Generator

- Developed an automatic CAPTCHA generator using HTML, CSS, and JavaScript, creating dynamic and secure CAPTCHA images with numbers and letters to prevent automated submissions.
- Designed a user-friendly interface for generating and validating CAPTCHAs, enhancing the security and usability of web applications.

SKILLS

Technical Skills
Programming Languages :
- Python
- JavaScript

Web Development:
- HTML
- CSS
- Node.js
- Bootstrap

Frameworks:
- Python (Django, Flask)
- JavaScript (React, Express.js)

Databases:
- SQL
- MongoDB

Tools:
- Git, GitHub

.

EDUCATION

Parul University

B-tech
Computer Science and Engineering
Specialization in AI and ML

2022-2025

OTHER

- Web Development
- Microsoft Azure
- Participant in Vadodara Police Hackathon
- SAP Code-Unnati by Edunet (AI and Ml)
